

Hip pain healed and surgery avoided

My hip problems started a year ago. I had gone to several doctors, and they tried cortisone shots. I had no relief, and the doctors wanted me to go for another one, but I wanted to get a second opinion. I went to another doctor and he said that he could clean it up by shaving the hip and repairing it. I tried that, but had no relief. Then at my follow-up visit he stated that I should get a hip replacement, which after so many procedures, I thought I just did not want to do. My husband Joe had a heart attack that same month, and I put myself on hold. I needed to take care of him.

It was Tuesday, June 14, at the barn (Intercessors of the Trinity). Every time I go I would feel the inner peace, how I long for it. As the prayer meeting started, I just thought to myself I would like to sit in the back of the barn and be with my Lord, and I found myself praying: "Lord...I cannot get the hip surgery. I need to put myself on hold to take care of my husband Joe. Only you can heal me, you are the great physician. If you want to, you can heal me, please help." Then I stood quiet for a few minutes, and got up to pray and be led by the Holy Spirit to pray for the others who needed prayer. I felt a burning sensation on my hip, heat, and I thought to myself, "Oh no, not something else?" I just ignored it and continued praying. The next day at 1 pm I thought, wow, I did not need any meds today? I have felt no pain since then, and it has been two months now. I praise God every day for my healing! God is able, just believe and know He is hearing you. I thought of others before myself, and God honored my prayers.

In Christ,

Jo Ann
